CAN I USE DRY ICE FOR HUNTING & THE OUTDOORS?

Yes you can! Dry ice is the perfect solution for all your cooling needs, being safe, affordable and long-lasting. It is ideal for hunting trips, 4x4 trips, fishing, hiking, safaris or weekend trips. Using dry ice makes it possible to keep meat or food fresh for a couple of days in the bush as well as transportation of bushmeat to your home. When it comes to your liquid beverages, dry ice is ideal for keeping drinks ice cold.

7 REASONS TO USE DRY ICE FOR HUNTING & OUTDOOR ADVENTURES

- Reliable:** It's ideal to keep meat and food frozen for periods of four days and longer without electricity.
- Inexpensive:** There is no need for expensive bulky freezers.
- Powerful:** Dry ice is seven times more effective than water ice when it comes to cooling.
- Clean:** It leaves no residual dirty water in the container after the ice has melted.
- Ease of use:** Dry ice is easy to handle.
- Available:** We've made it easy to get your dry ice at outlets throughout SA, or delivered to your doorstep!
- Safe:** If handled correctly, it is perfectly safe for personal leisure use.

IN WHAT SIZES CAN I BUY DRY ICE?

It comes in round and square blocks, as well as pellets in 3 mm and 16 mm sizes.

Round block: 2.5 kg (Ø200 mm x H65 mm)

Square block: 2.0 kg (L210 x W120 x H50) or 1.0 kg (L210 x W120 x H22)

It is packed in boxes of 10 kg, which makes it easy to handle. When shipped to your doorstep, it will be in a 20 kg polystyrene container.

HOW MUCH DRY ICE DO I NEED IN MY COOLER BOX?

If the meat or food is already frozen, you will need the following amounts of dry ice to keep it all frozen for these time periods:

COOLER BOX SIZE?

DAYS	25 litre	40 litre	60 litre
1	2 kg	4 kg	5 kg
2	3 kg	5 kg	8 kg
3	4 kg	6 kg	10 kg
4	5 kg	8 kg	13 kg
5	6 kg	10 kg	15 kg
6	7 kg	13 kg	18 kg
7	8 kg	15 kg	20 kg

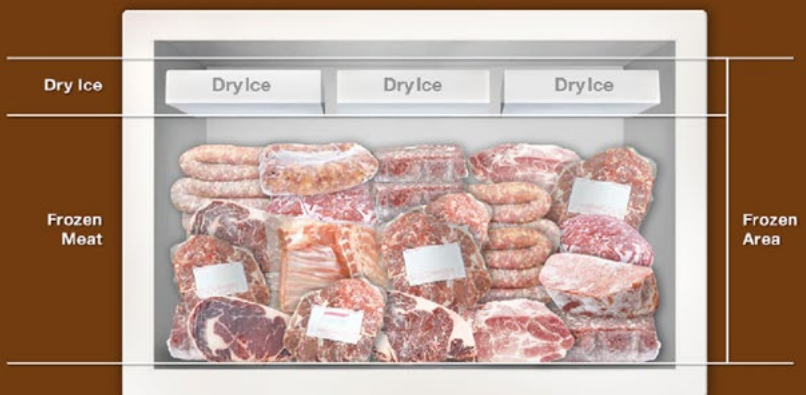

HOW DO I TRANSPORT BUSHMEAT WITH DRY ICE?

- Roll the dry ice in newspaper. It will last longer and cooling is more effective.
- Place the dry ice on top of, and around the carcass or bushmeat.
- Your bushmeat is kept cold all the way from the bushveld to your home in the city!
- The CO₂ that's produced, replaces the oxygen near the meat and keeps your bushmeat fresher for longer.
- Insects are also kept at bay since they cannot survive in CO₂ gas.

HOW DO I STORE DRY ICE?

Use an insulated cooler or polystyrene container. We can supply you with the perfect size polystyrene container, or you can wrap the dry ice in paper or a blanket to extend the life even further if necessary. Remember, do not store dry ice in your freezer at home!

WHAT ABOUT SAFETY?

Dry ice is not for human consumption.

Handle it only with protective gloves or mitts.

Transport it only in complete isolation from the driver.

Do not place dry ice in any gas-tight container. It transforms and expands!

Keep dry ice away from children (adult supervision is required).

WHAT IS DRY ICE?

It is frozen carbon dioxide (CO₂), which remains at -79 °C. It is a non-toxic, non-flammable food-grade product, which transforms from a solid directly to a gas – no liquid or water is left behind. The transformation creates the cooling effect.

The energy value of dry ice is 570 kJ/kg.

DELIVERY

Dry Ice International carries out dry ice deliveries countrywide on a 24-48 hour basis.

Dry ice may be ordered on our website and be delivered to your doorstep. Dry ice can also be collected at any of our retail outlets.
